CAREER HISTORY

HMX Media

Front End developer

December 21, 2020 – Present

Key Accomplishments and Responsibilities:

- Joined HMX Media in December 2020 as a Front-End Developer, contributing to the core Web team.
- Proficiently worked with a range of technologies including HTML, CSS, JavaScript, jQuery, Bootstrap, AJAX, JSON, and React JS.
- Utilized Git for effective code collaboration, streamlining the development process among programmers.
- Took charge of multiple projects from their inception, displaying adaptability in handling projects from scratch.
- Thrived in a dynamic, small-scale company environment, gaining valuable insights into understanding business requirements right from the early stages of my career.

- Drove project count incrementally by consistently delivering projects on schedule and maintaining high quality.
- Currently focused on the core Web team's objective of providing interactive web components and Real-Time 3D user interfaces for globally leading products.
- Adeptly build reusable components that have cross-project and cross-application utility.
- Employ cutting-edge technologies including WebGL, WebAPIs, ReactJS, and JavaScript to craft interactive and responsive applications.

Projects in HMX Media:

1) React Project (Dell):

Technologies: React JS, Material UI, JavaScript, Json

Description:

- As a junior developer on this project, I actively contributed to the creation of various components.
- Proficiently utilized Functional Components and React Hooks in the development process.
